Computer Systems Group
UNIVERSITY OF WATERLOO

copy

July 16, 1976

Mrs. I. Biren
Computing Information Services
Room 2F128
Bell Laboratories
Murray-Hill, N.J. 07974
U.S.A.

Dear Mrs. Biren:

As discussed in our telephone conversation of July 13, 1976, my department wishes to acquire a copy of the UNIX Time-Sharing System. We wish to have our own copy of UNIX, independent of any other departments of this university which also run UNIX. We are prepared to pay the required service charge for a separate agreement.

The computer on which our UNIX system would be run is a Digital Equipment PDP 11/45, with C.P.U. serial number 866. This computer is located at the following address:

158 University Avenue West
Waterloo, Ontario, Canada

There are no room numbers in this building. The person with signing authority in our department who will be responsible for the system is Professor J.W. Graham, Director of the Computer Systems Group.

.../2

Please send the appropriate forms as soon as possible. All mail should be directed to the address given on the letterhead.

We have heard good reports about UNIX and are looking forward to using it.

Sincerely,

K.I. McPhee

KIM/bjr
